Bradshaw Kirchofer Announces Partnership With AGA Marvel

Stylish offerings of British-inspired kitchenware, luxury furniture go hand-in-hand

(Torrance, Calif. – June 25, 2013) – Bradshaw Kirchofer, makers of handcrafted furniture inspired by their British heritage, announces a partnership with AGA Marvel, a European company renowned for its bold and contemporary-styled cookware and kitchen accessories.

Particularly recognized for its cookers, cast-iron oven stovetops with a vintage style, AGA's products fit in perfectly amongst Bradshaw Kirchofer's rich and weathered line of made-in-America furniture. The AGA Cookers come in a range of sizes and colors including both classic and contemporary hues.

"AGA is also a company with English roots, so its cookers blend in seamlessly with our dining room and kitchen collection of furniture," said Bradshaw Kirchofer Marketing Manager Lisa Faulkner. "We are delighted to have this opportunity to expand our kitchen and dining options."

Other kitchen and dining products offered by Bradshaw Kirchofer include buffets, sideboards, dining tables, hutches, displays, kitchen islands and seating. These handcrafted pieces of furniture inject charm and character into any kitchen space.

All Bradshaw Kirchofer furniture is handmade in the U.S. by trained artisans using high quality, solid pine. The designers at Bradshaw Kirchofer use traditional woodworking techniques to create sturdy reproductions of European vintage furniture that can withstand the wear and tear of daily life. A refined selection of 21 specialty paints and finishes are applied by hand using a five-step finishing process to achieve the signature Bradshaw Kirchofer style.
